1. Say where and when are you born

I was born on November 5th, 1995 in Nice.

2. Talk about things that you liked to do in your childhood using specific verb patterns

When I was child I adored leaving for vacancy with my parents and their friends. We left all together one were flat of child it was very pleasant t be all together, a little as a family. One left at least twice a year together, without counting weekend where we were some to the others. I think of having had a lot of luck to have been raised with so many friends who today are as my family. When I was a child I have so much memories with them as with my grandparents or my cousins. But I do not regret having had his great childhood.

3. Describe your personality during your adolescence using adjectives

When I was adolescent, I did not make the crisis of adolescence which many teenager make. I always had a lot of respect for my parents. I indeed think that it is something normal when they made every effort that one always have a roof on the head and something in our plate. I was a responsible teenager and I took care a lot of my younger brother. We are very in collusion both.

4. Describe your social life in high school using the past simple

At the high school I was in professional high school. And I was in a class where we were much welded. One did not go out often together but when we were in the high school we were always all together. During these 3 years of trainings I made my periods of internship with Decathlon, and I made friends with three people who worked there low. For me the high school was the most beautiful year of my life but I think that the years which I am going to cross to Epitech are going to be even more striking and nicer.

5. Use appropriate vocabulary regarding your free time during adolescence

As when I was smaller, during my adolescence and until my 17 years, I went on holiday with my relatives and their friends. But I also a lot went out and it everything weekend I was in nightclub or then w made evening on beaches with my friends. I really had a very pleasant adolescence. And I also spent a lot of time has to study to obtain my high school diploma. I wished to obtain it with a mention and it is that I had the high school diploma magna cum laude distinction.
